Dear Doug,

We want to thank you for your recent visit to our campus. You have helped us begin what will no doubt be a successful school year. Your professionalism both before, during and after our event was exceptional. We appreciate your solicitation of input for the presentation, your careful attention to detail and your well-crafted delivery. Our goal at the beginning of the school year is always to uplift our staff and ensure them that together, with our goals and complete dedication, we can improve the lives of our students. Your presentation not only reinforced this goal, but also helped our staff see that they can also better their own lives by "Playing Full Out".

Some of our teachers had the following comments to say about your presentation:

*"I enjoyed being able to laugh and still reflect on how to be a better person, colleague, friend and family member."*

*"Doug Hanson's presentation was focused and high energy, just what was needed to start a positive school year off! Although every tidbit of information was relevant the most prized point that was driven home to me was the importance of an engaged mindset. Keeping my goals in front of me by creating statements that give daily reminders as to what I believe in and want to accomplish in my life or educational setting is imperative to staying on course. If I look engaged, act engaged and work to create engagement around me, who knows whose mindset will shift with me."*

Once again, we want to thank you so much for your time and talent. We look forward to hearing about your upcoming book release and look forward to working with you again in the future!

Sincerely,

Keiko Davidson, Principal
